

4X4 Vehicles

- o The attractions in the region (beaches, lakes, etc) can only be explored with a 4X4 vehicle and therefore you have to go on daily excursions provided by your accommodation establishment or explore with your own 4X4.
-
- o When driving in the Park deflate your tyres to 1.5 bar or even 1.2 bar. The speed-limit in the Park is 40km/h
-
- o Beware of other cars coming around sharp bends.
-
- o Some 4X4 drivers do not find our roads challenging enough and spin out tracks whenever they find a steep hill. Please do not make new tracks.
