

## Maputaland Bush Camp

Maputaland Bush Camp is a small intimate lodge. We accommodate 10 people sharing in bush style chalets. Each huts have an on suite shower and bush toilet. We serve excellent home cooked meals (European breakfasts, lunches and dinners) served in the main house or a picnic lunch when on a day excursions / activities. We are an establishment managed by the owners. The region is very children friendly (we have two small children).

We tried to preserve the bush experience. Solar panels provide enough lights at night. When essential a generator can supply a few hours of electricity per day.

We have stables with horses on site.
